

# KEEP-FILL®

## *Inventory Management Solutions*

### **Armor Coat™**

- The strength of Grade 8 fasteners - up to 2-1/2 times stronger than Stainless Steel.
- 10 times more corrosion resistance than Zinc plating with conversion coatings - the corrosion resistance of Stainless Steel with the strength of Grade 8.
- Superior value - more cost effective than Stainless Steel.

### **MetBlue™**

- Blue color coding eliminates the possibility of cross-threading an inch series faster in a metric threaded hole.
- Faster and easier identification reduces costly equipment downtime.
- Ideal for critical applications.
